

Fastener Training Institute Workshop: September 20, 2016, in Burlington, CT

The Fastener Training Institute will conduct a one-day training course at Crescent Manufacturing on Tuesday, September 20, at the Crescent Manufacturing plant. This training session will be led by Jim Speck, P.E. The course will draw upon Jim's extensive fastener industry experience, some of which he obtained while working at Crescent Manufacturing.

EVENT: Fastener Fundamentals

DATE: September 20, 2016

TIME: 8:30 a.m. - 4 p.m.

LOCATION: Crescent Manufacturing, 700 George Washington Turnpike, Burlington, CT

The Fastener Fundamentals workshop provides a sound foundation for understanding the fastener industry. Topics covered in Fastener Fundamentals include: a technical foundation, fastener materials (cold, warm and hot heading), thread rolling, heat treating, plating and coating, screw threads, look at heading, slotting and threading in process at Crescent Manufacturing, and much more!

The registration fee includes:

- a full day of training in a small-group environment;
- continental breakfast, lunch, coffee breaks and free parking; and
- a certificate of completion.

Jim Speck, P.E., presents workshops and seminars on fastener fundamentals, fastener applications, and screw thread technology. Jim is the author of the book Mechanical Fastening, Joining and Assembly.
