

FCH to Award Fastener Training Institute Scholarship

August 2, 2015 / [travelingsalesman](#) /

The FCH Sourcing Network has teamed up with the Fastener Training Institute for a second year to announce its participation in the promotion and selection of a scholarship candidate who will be awarded full tuition to the Fastener Training Institute course, "Fastener Training Week". Once completed, the course qualifies students to sit for the Certified Fastener Specialist exam, a distinguished industry credential.

To qualify for selection, candidates must work within the fastener industry and must submit a brief essay, approximately 250 words in length. The essay should address the importance of training in the fastener industry, and the impact of training on the candidate's career. Candidates can be nominated by owners or managers, who are welcome to submit an essay on behalf of a nominated candidate. There is a limit of one nominated candidate per company, however there is no limit to the number of individual candidates from any given company who submit an essay on their own behalf.

The deadline to submit scholarship candidate essays is September 30th, 2015, and the winner will be announced during the Las Vegas fastener show after-event, known as the "Bourbon Room Bash", October 22, 2015.

Last year, the FTI also provided vouchers to all scholarship applicants to attend an online training webinar, so there is no reason not to get applications in ahead of the deadline.

Scholarship essays become property of the Fastener Training Institute. Applications may be submitted via email to: fttr@fullythreaded.com

About the FCH Sourcing Network: The FCH Sourcing Network serves the industrial and commercial fastener industry, providing online services related to inventory sales and fastener sourcing on the Internet, as well as the online fastener industry talk show, Fully Threaded Radio. Located at the website www.fastenersclearinghouse.com, FCH was founded in October, 2006, and is based in Naperville, Illinois.

About the Fastener Training Institute: The purpose of the FTI is to enhance fastener use, reliability and safety by providing the highest quality fastener product and technical training at all levels through classes held throughout the country and via online webinars. Based in Long Beach, California, class schedules and details can be found at their website, www.fastenertraininginstitute.org.
