

Fastener News Desk Launches New Website

Fastener News Desk has launched a redesigned website, complete with a new logo and appearance. The new website has been designed to provide an excellent user-friendly experience, with improved navigation and functionality throughout. The site has been designed with the latest responsive design for mobile devices.

Fastener News Desk provides the industry with up-to-the-minute news, industry organizations, events, current and archived publications, social media, research, industry reports, lead generation and all the latest information you need to stay ahead of the curve in the ever changing business world. Customers can now benefit from rich online content that is easier to navigate and share with others.

Launched just in time for the Manufacturing Day (MFG Day) 2016 celebration and the National Industrial Fastener & Mill Supply Expo (NIFMSE) in Vegas - both happening in October of this year - the new website hosts a page dedicated to each event with all the information you need to get involved and spread enthusiasm.

About Fastener News Desk

Fastener News Desk is your 'fast' connection to everything in the fastener industry. Subject matters range from fasteners to a variety of industries that fuel growth in our industry such as: aerospace, construction, automotive, industrial internet of things, technology, supply chain, manufacturing, additive manufacturing, 3D printing, distribution, online marketing, trade shows, B2B Ecommerce, social marketing, and everything in between.

Fastener News Desk is based in Youngstown, Ohio, the center of the Steel Valley, once known as the Rust Belt, now turned Tech Belt movement. Fastener News Desk at the forefront of the manufacturing renaissance.
