

Applications Open for Gilchrist Foundation Scholarship

Applications will be accepted through May 31 for the 2022 Gilchrist Foundation Fastener Scholarship.

The Gilchrist Foundation Scholarship was established in the year 2000 to provide financial assistance for college education for persons involved in the fasteners industry (or children of those employed in this industry). Robbie and Gina Gilchrist's wishes are to give something back to an industry that provided so much to them. This perpetuating scholarship provides a way to reward those who have the excitement and enthusiasm for the fastener industry experienced by Robbie and Gina.

To apply, visit www.gilchristfoundation.com.
