

HAND KNOBS FROM J.W. WINCO, INC. OFFER LOSS PROTECTION

NEW BERLIN, WI – J.W. Winco, Inc., a leading supplier of standard industrial machine components, announced it now offers GN 6336.13 Nylon Plastic Star Knobs with Loss Protection, Tapped Type, in inch and metric sizes.

These RoHS-compliant hand knobs can be attached to a base element with the help of a ball chain or a retaining cable. Knobs are supplied ready assembled (with lanyard ring, with lanyard ring and retaining cable, or with lanyard ring and ball chain).

Hand knobs are made of a thermoplastic nylon material (Polyamide PA) with a matte black finish. They have tapped inserts made of stainless steel, European Standard No. 1.4305 (American Standard Series 303). Lanyard ring option is GN 111.6, stainless steel, European Standard No. 1.4310 (American Standard Series 301). Retaining cable option is GN 111.2, stainless steel, European Standard No. 1.4310 (American Standard Series 301), coated with clear plastic. Ball chain option is GN 111.5, stainless steel, European Standard No. 1.4310 (American Standard Series 301).

J.W. Winco offers an extensive selection of inch and metric size adjustable levers, cabinet U-handles, plastic and steel hinges and locking mechanisms, revolving and retractable handles, hand wheels, hand cranks, tube connection and conveyor components, inch and metric construction tubing, shock absorption mounts, leveling mounts, hand knobs, spring, ball and indexing plungers, jig, fixture and fastening components, retaining magnet assemblies, toggle clamps, metric casters and wheels, universal joints, oil sight glasses, and metric tools for the industrial and commercial equipment industries. J.W. Winco's website catalog, with 3D CAD and online buying, is viewable at www.jwwinco.com.
