

## **News from Hanger Bolt & Stud Company**

After nearly 35 years, Vice President David Fretz has announced his retirement from Hanger Bolt & Stud Co. His retirement will be effective at the end of 2022.

Initially heading up the sales and marketing effort of our fastener division, Dave quickly assumed a major role in the design and marketing of our emerging line of automatic Drill n' Drive machines. More recently, his efforts have helped build our HBS wire drawing operation, which now overshadows our fastener footprint.

Dave's sound leadership in our organization and the industries we serve will be greatly missed. We wish you well, Dave!
