

J.W. Winco, Inc. Retaining Magnets Hold Drawings

J.W. Winco, Inc., a leading supplier of standard industrial machine components, announced it now offers GN 53.1 Plastic Retaining Magnet Assemblies, Disc-Shaped, Without Thread, in metric sizes.

These RoHS-compliant components are a shielded magnetic assembly. They are primarily used for holding drawings and the like. The ND magnetic material is characterized by a high adhesive force.

Housing is plastic, available in gray, white or red. Magnet is neodymium, iron and boron, NdFeB (ND type). Sizes range from 18 to 40 mm in diameter. Temperature resistant to 175 °F (80°C).

J.W. Winco offers an extensive selection of inch and metric size adjustable levers, cabinet U-handles, plastic and steel hinges and locking mechanisms, revolving and retractable handles, hand wheels, hand cranks, tube connection and conveyor components, inch and metric construction tubing, shock absorption mounts, leveling mounts, hand knobs, spring, ball and indexing plungers, jig, fixture and fastening components, retaining magnet assemblies, toggle clamps, metric casters and wheels, universal joints, oil sight glasses, and metric tools for the industrial and commercial equipment industries. J.W. Winco's website catalog, with 3D CAD and online buying, is viewable at www.jwwinco.com.
