

## **J.W. Winco, Inc. Offers Zinc Die-Cast Hinges with Extended Hinge Wing**

J.W. Winco, Inc., a leading supplier of standard industrial machine components, announced it now offers GN 237 Zinc Die-Cast Hinges with Extended Hinge Wing, Countersunk Thru Holes or Threaded Stud Type.

These RoHS-compliant hinges with extended hinge wings, used when wider spacing is required on the mounting surface for the bore holes, have a compact and sturdy design.

The hinge body is zinc die-cast, with either a black powder coated, textured finish or silver powder coated, textured finish. The hinge pin and threaded studs type are stainless steel. Various metric and inch size fasteners and kit packaging available upon request.

J.W. Winco offers an extensive selection of inch and metric size adjustable levers, cabinet U-handles, plastic and steel hinges and locking mechanisms, revolving and retractable handles, hand wheels, hand cranks, tube connection and conveyor components, inch and metric construction tubing, shock absorption mounts, leveling mounts, hand knobs, spring, ball and indexing plungers, jig, fixture and fastening components, retaining magnet assemblies, toggle clamps, metric casters and wheels, universal joints, oil sight glasses, and metric tools for the industrial and commercial equipment industries. J.W. Winco's website catalog, with 3D CAD and online buying, is viewable at [www.jwwinco.com](http://www.jwwinco.com).
