

### **Stainless Steel Hinges from J.W. Winco, Inc. Resist Tampering**

J.W. Winco, Inc., a leading supplier of standard industrial machine components, announced it now offers GN 129.5 Stainless Steel Hinges, in metric sizes.

These RoHS-compliant hinges are used for doors that are flush with the frame on the outside. Once assembled, they cannot be unhinged. Being mounted from the inside, they are especially suitable for doors and trap doors, which must not be detachable from the outside, as an anti-tamper device.

Hinge body, pin, and washer are available either in stainless steel, European Standard No. 1.4305 (American Standard Series 303) or A4 stainless steel, European standard 1.4408 (American Standard Series 316). Hex nut and serrated washer are of stainless steel, European Standard No. 1.4301 (American Standard Series 304).

J.W. Winco offers an extensive selection of inch and metric size adjustable levers, cabinet U-handles, plastic and steel hinges and locking mechanisms, revolving and retractable handles, hand wheels, hand cranks, tube connection and conveyor components, inch and metric construction tubing, shock absorption mounts, leveling mounts, hand knobs, spring, ball and indexing plungers, jig, fixture and fastening components, retaining magnet assemblies, toggle clamps, metric casters and wheels, universal joints, oil sight glasses, and metric tools for the industrial and commercial equipment industries. J.W. Winco's website catalog, with 3D CAD and online buying, is viewable at [www.jwwinco.com](http://www.jwwinco.com).
