

## **J.W. WINCO, INC. OFFERS MOUNTABLE ALUMINUM METRIC RULERS**

NEW BERLIN, WI – J.W. Winco, Inc., a leading supplier of standard industrial machine components, announced it now offers GN 711.2 Aluminum Rulers with 3.3 mm Mounting Holes, in metric sizes.

These RoHS-compliant rulers are offered in six different horizontal or vertical configurations. They have imprints that are resistant to weak acids and lye solutions, and against solvents if exposure is brief. A self-adhesive version is available upon request. Also available are accompanying GN 711.3 Aluminum Indicator Arrows.

Rulers and arrows are made of aluminum with natural anodized finish. Their surfaces are imprinted in black with numbers and scale markings etched (i.e., aluminum colored). All ruler versions are offered in lengths from 50 to 1,000 mm.

J.W. Winco offers an extensive selection of inch and metric size adjustable levers, cabinet U-handles, plastic and steel hinges and locking mechanisms, revolving and retractable handles, hand wheels, hand cranks, tube connection and conveyor components, inch and metric construction tubing, shock absorption mounts, leveling mounts, hand knobs, spring, ball and indexing plungers, jig, fixture and fastening components, retaining magnet assemblies, toggle clamps, metric casters and wheels, universal joints, oil sight glasses, and metric tools for the industrial and commercial equipment industries. J.W. Winco's website catalog, with 3D CAD and online buying, is viewable at [www.jwwinco.com](http://www.jwwinco.com).
