

Joe Greenslade Receives Award for Work on ASTM International Standards for Fasteners

Joe Greenslade, director of engineering technology at the Industrial Fasteners Institute in Independence, Ohio, has received the Fred F. Weingruber Award from ASTM International [Committee F16 on Fasteners](#).

The committee noted, “Greenslade’s leadership and dedication have helped make F16 a premier body for fastener standards.” An ASTM member since 1994, Greenslade works on multiple F16 subcommittees, as well as on Committee B08 on Metallic and Inorganic Coatings.

Greenslade assumed his role at the Industrial Fasteners Institute in 2007. Prior to that he was president of Greenslade & Co. Inc., based out of Fort Worth, Texas. He mainly specializes in mechanical fastener design, applications, manufacturing and quality, and holds 13 U.S. patents.

Outside ASTM, Greenslade is a member of the American Society of Mechanical Engineers, the Industrial Fasteners Institute, the International Organization for Standardization, the Research Council on Structural Connections and SAE International. He holds a bachelor’s degree in business management from Texas A&M University.

Helping our world work better

Over 12,000 ASTM standards operate globally. Defined and set by us, they improve the lives of millions every day. Combined with our innovative business services, they enhance performance and help everyone have confidence in the things they buy and use – from the toy in a child’s hand to the aircraft overhead.

Working across borders, disciplines, and industries we harness the expertise of over 30,000 members to create consensus and improve performance in manufacturing and materials, products and processes, systems and services. Understanding commercial needs and consumer priorities, we touch every part of everyday life: helping our world work better.
