

ND Industries Names Brad Gallagher Applications Engineer, Business Development Manager

ND Industries is pleased to announce the hiring of Brad Gallagher as Applications Engineer and Business Development Manager. Brad will be focused on the growing electric vehicle industry, as well as the aerospace and industrial markets, while fostering ongoing relationships with clients across the Western United States. As a trusted partner, Brad will work with new and existing customers to determine how ND can help solve their problems.

In 2009, Brad graduated from Kettering University with a Bachelor of Science in Mechanical Engineering, followed by a Master of Science in Engineering Management in 2011. During his time at Kettering, Brad participated in numerous co-op programs. Each program honed Brad's skills and exposed him to all levels of an organization.

Brad's career path allowed him to work with world-renowned chemical manufacturing companies that specialize in fasteners and adhesive technology. Starting in the lab, Brad was quickly recognized for his technical know-how and communication skills. Brad has since worked in Account Manager and Business Development roles, handling large OEM accounts.

Brad intends to draw on his background in the automotive industry to collaborate with engineers and managers to develop technical solutions that meet their product requirements. With Brad's assistance, ND Industries will continue to bring in new business and build on the established customer base. Brad is confident that ND Industries will remain on the cutting-edge with its exceptional line of products and unparalleled customer service.

ND Industries is a leading chemical technology manufacturer, serving the global market with adhesives, sealants, and thread-locking technologies. ND Industries specializes in products utilized in the automotive, aerospace, and defense industries.
