

## **2022 Pac-West Spring Conference and Tabletop Show Education**

Registration is now open for Pac-West's Spring Conference and Tabletop Show! Join us March 16-18 in Anaheim, CA at the brand new Westin Anaheim Resort for three days of education, networking, and fun social events. These are some of the educational presentations included with your registration:

### **State of the Industry Panel Discussion**

- What's going on in the fastener market?
- What are the most pressing challenges in the fastener industry?
- What do we need to know to be successful?

Join us for a timely panel discussion that will bring us up-to-date with what's new with stainless steel and carbon fasteners, along with what we can expect from our suppliers in the future. Panelists include Chris Donnell (Scanwell Logistics), Tim Roberto (Star Stainless Screw), and Jun Xu (Brighton-Best International).

### **Lessons from the Navy with Captain Mark Brouker**

This fascinating presentation, presented by a prior commanding officer with years of leadership experience who is now expert faculty, looks beyond traditional models by exploring the approaches used by top-performing Fortune 500 companies, military units, and sports teams. Through illustrative case studies, role play, and entertaining and sometimes dramatic personal stories, participants will discover practical and easily employed behaviors that help retain talent and significantly improve team performance.

### **KPI Development and Strategies Panel**

An overview with active industry professionals on how to understand, develop, and use information you already have to implement measurable progress in your company. Panelists include Humberto Avila (ND Industries), Kelly Cole (Hayes Bolt & Supply), and Dustin Card (Industrial Threaded Products).

### **Economic Update with Dr. Chris Thornberg**

Ongoing handwringing about an impending recession stands in stark contrast to a U.S. economy that just keeps trucking along despite the theatrics that have dominated national politics, the ongoing trade war with China, a slowing European economy, deepening crises in the Middle East, and tightening labor markets. Beacon Economics' founding partner Dr. Christopher Thornberg will present a comprehensive forecast for the U.S. economy, delivering insight into the direction indicators such as employment/unemployment, consumer and business spending, commercial and residential real estate markets, and GDP growth will take in the future.
