

Palm Labs Adhesives Redesigns Website

Palm Labs Adhesives, a leading manufacturer and distributor of adhesives and sealants, has updated its website (www.palmlabsadhesives.com). It features a new design, easy-to-navigate content and plenty of technical information to aid in product selection and application.

The new site provides technical data sheets and material data sheets for all Palm Labs Adhesives' products. Featured products include anaerobic threadlockers, cyanoacrylate, methyl methacrylate, polyurethane adhesives, gasket makers and sealants. Military specified adhesives are also highlighted with cross-reference tables for most other brands.

Palm Labs Adhesives is ISO 9001: 2008 certified, meets Military and Commercial Specifications, and is Medical Device certified to 10993-5 and USP-class VI.
