

SPIROL: Precision Metal Shims Brochure Now Available

SPIROL recently released a new Precision Metal Shims brochure detailing the breadth of its Shim product line, value-added services and quality certifications.

To view the brochure online, visit http://www.spirolshims.com/SPIROL-Precision-Metal-Shims-brochure_us.pdf.

SPIROL specializes in quick turnaround delivery of high quality, Precision Engineered Shims ranging from simple OD/ID shapes to complex geometries - particularly in low to medium volumes. All Shims are custom-made to customer specifications from a comprehensive inventory of raw materials in thicknesses from .002" (0.05mm) to .250" (6mm).

This new catalog details SPIROL's product offering and highlights the major ways the company can help customers improve their profitability when they partner with SPIROL on their Shim requirements.

For more information, contact Christie L. Jones, market development manager, at 860.774.8571, email cljones@spirol.com, or visit www.SPIROL.com.
