

Sherex Fastening Solutions Celebrates 10 Years of Continuous Operations at Sherex Taiwan

Sherex Fastening Solutions, a global leader of engineered fasteners, tooling and automation recently celebrated the 10-year anniversary of its Sherex Taiwan manufacturing, research and development, and sales facility. Sherex commemorated the occasion last October with an impressive turnout of customers, suppliers, and employees. The multiday celebration included an employee appreciation day, a well-attended supplier event, and a customer golf outing.

Since its inception in 2004, Sherex Taiwan, led by Dr. Alex Hsaio, has provided high quality products, industry leading new product development, as well as full manufacturing capabilities for Sherex's key product lines of standard rivet nut inserts, custom engineered rivet nut and stud inserts, and clinch nuts.

"Sherex Taiwan represents our continued commitment to delivering innovative, high quality fastening solutions to our customers across industries, around the globe," said Sherex President Adam Pratt, "We are proud of the Sherex Taiwan team and are grateful for the support of our customers world-wide."

In its 10 years of business, Sherex Taiwan has supported Sherex Fastening Solutions' cutting-edge product innovation. Sherex Taiwan's design and manufacturing experts created the Riv-Float®, Riv-Float® Short, Full Hex, and Large Size rivet nut insert product families.

Starting from humble beginnings, Sherex Taiwan has grown considerably over the years; the facility has expanded multiple times, more than quadrupling its original footprint. During this period of significant growth and product expansion, Sherex Taiwan was awarded world-class certifications, including ISO/TS 16949:2009, and ISO 14001:2004.

"We are poised to continue delighting our customers with our innovation, high levels of customer support, and lowest-total installed cost solutions," said Adam Pratt, "and we look forward to the next 10 years of growth and innovation."

Sherex, along with its strategic partners in Germany and Belgium, is a premier supplier of fasteners, tooling, and installation automation offering customers turnkey solutions with the lowest total installed cost. With industry-leading product technology, manufacturing expertise, and deep engineering capability, Sherex is committed to solving industries' fastener challenges.

About Sherex

Sherex Fastening Solutions is a global manufacturer with a unique market approach in engineered fastening solutions. We combine fasteners, tooling, and automation to deliver the best solution at the lowest total installed cost. Sherex manufactures products for the

Automotive, Aerospace and Defense, Agriculture and Construction Equipment, General Industrial, and Heavy Truck markets.
