

New Smalley Catalog Released: An Essential Tool to Engineers in Need of Innovative Space-Saving Solutions

For more than 50 years, engineers have relied on Smalley's Engineering and Parts catalog as an essential resource for their designs.

As The Engineer's Choice™ for Wave Springs, Spirolox® Retaining Rings and Constant Section Rings, Smalley's newly released catalog offers engineers a glimpse into how our engineers partner with you to deliver solutions that meet or exceed target application performance.

Whether you require a custom solution or a standard part, Smalley's new catalog provides the essential information to take your designs to the next level.

What's new in the latest release?

- An updated introduction to Smalley sheds light on our capabilities, including our expanded product range, engineering expertise and industry experience in custom designs, superior quality and exceptional service and deliverability
- An introduction to our Bearing Preload series explains the benefits of using Smalley wave springs to prolong bearing life
- Linear Springs, Smalley's latest innovative product, as a standard series
