

WIFI Scholarship Deadline Aug. 31

Fly with WIFI! The WIFI scholarship committee is happy to continue offering our members the opportunity to attend classes at the **Fastener Training Institute** with the ***Ann Bisgyer Wolz Scholarship***, or attend the **National Fastener Industry & Mill Supply Expo** with the ***Edith Cameron Scholarship***. The deadline for applications is August 31.

“The Wolz scholarship a great perk for our members as the Fastener Training Institute is the premier training ground for the industry, and the NIFMS Expo in Las Vegas is an opportunity to learn and connect as well,” said WIFI President Cris Young. “Knowledge is power, and what better way to learn and grow than with WIFI.”

WIFI pays for travel, accommodations and entrance fees to the NIFMSE Expo and the FTI.

WIFI is a non-profit organization that provides mentoring, networking and educational opportunities for women employed in the industrial fastener industry. We welcome corporate sponsorships for events and scholarships.

For more information and applications, please visit www.fastenerwomen.com.
