With only 3 weeks to go, [GALM Detroit](#) has already beat its own records and gathered the largest community of automotive experts who will be meeting in Detroit for a 3 day extensive networking and learning initiative.

With major OEMS, material suppliers and the most advanced technology providers gathering in Detroit on August 18-20th, there is still a chance to join experts from companies including **Novelis, RB&W, Siemens, Honda, GM, Tesla, Ford, Chrysler** and many more who have already confirmed their participation in the summit. Only a few places remain open, so don't miss your chance to join this year's Global Automotive Lightweight Materials Detroit Summit and get engaged in discussions with the leading experts and make your contribution to the automotive lightweighting industry growth.

A Snapshot Of The Room

BASF Corporation, Henkel Adhesive Technologies, Afton Chemical, Dana Holding Corp, **Toyota Motor Eng. & Manf. N.A.**, Shiloh Industries, Novelis, **Toyota Technical Center**, Deere & Company, Steel Dynamics, **Honda R & D Americas, Inc.**, Alcoa, Aleris, Extal, Aisin, Chemetall, SABIC Royal Adhesives and Sealants, Rio Tinto Alcan, Tata Technologies Limited, TWB Company Royal Adhesives & Sealants, Kirchhoff Van-Rob A.Raymond Tinnerman, Shape Corp., PPG, Alcoa Fastening Systems & Rings, TEMA-TTC Araymond - Center of Expertise, Faurecia Technical Fibre Products, Inc., **Tesla Motors** Meridian Lightweight Technology Inc, Dana Aisin Technical Center of America, Celanese Manufacturing Technology Inc., American Composites Manufacturers Association Michigan Manufacturing Technology Center Aleris International, A.
