

Perfection Chain Offers Custom Wire Form Capabilities for the Industrial Market

Perfection Chain Products is pleased to offer their impressive technology and state-of-the-art machinery to those industrial customers in need of custom wire forms. Whether a company is looking for complex, unique or straightforward shapes, Perfection Chain has the production facilities to design and manufacture the right piece to fit your needs. With sophisticated CNC and four-slide stamping machinery, their production team has the tools and expertise to create custom wire forms in a variety of metal shapes and dimensions.

Perfection Chain wire forms can be manufactured in wire diameters of .120 to .375 or by four-slides with diameters ranging from .062 to .250. They offer a selection of different finishes, including bright galvanized steel, and can handle both high and low volume orders. Their trained staff can help customers determine the best design for their needs and handle the shipping in a time and cost-effective manner. Customers are encouraged to submit a sample, print or drawing to receive a free quote on custom orders.

For more information or to request a quote, visit www.perfectionchain.com. Visit Perfection Chain at the International Fastener Expo, Booth #1261, October 17-19, 2017.

ABOUT PERFECTION CHAIN

As the largest domestic weldless chain manufacture, Perfection Chain offers an extensive product inventory including weldless chain, welded chain, decorative chain and chain accessories. These chains can be used in endless applications, from practical uses like hanging clothing or shelves to more decorative outlets such as creating an ornamental curtain or backdrop. They have been in the metal manufacturing industry for over 165 years and currently operate from their headquarters in Cullman, Alabama. As members of the National Association of Chain Manufacturers, Perfection Chain manufactures according to industry standards in compliance with applicable ASTM, UL, CSA and federal specifications.
